Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Agricultural and Industrial Bacteriology Agricultural and Industrial Bacteriology is based on practical experience as a teacher and lecturer during the last sixteen years, and has been written to supply a need constantly felt during these years of practical work with students of agriculture - the need for a book to include those bacteriological topics fundamental in everyday life on the farm and in the industries. The volume has also been written for textbook use and to serve as a reference work for students and the many men and women interested in agricultural and industrial problems. Written along such lines, and for such a public, Agricultural and Industrial Bacteriology contains no detailed discussion of methods and technique, since it is not intended to serve as a manual of laboratory practice. This volume has been written to lay a satisfactory and practical foundation on which may be based more advanced work in the specialized applications of bacteriology in dairying, soil technology, forestry, plant pathology, and various industries such as bottling, baking and canning. In certain parts of the book it is assumed that the reader possesses some knowledge of chemistry and biology; but the major portion of the volume requires no such background of previous work and preparation.
