## IMMORTALITY AND THEISM (PAPERBACK)

Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Immortality is here presented from the point of view of theism. By theism the author means: belief in personality as the source and sum of all values and ideals, best apprehended by us intellectually in the form of purpose animating and unifying all reality, a purpose which finds its progressive fulfillment in the growth of moral ideals and human efforts for their realization-the theist thinks of this as a world which has rational, moral, aesthetic and religious significance. It is those four lines of thought that are briefly developed and the conclusions are that a rationally significant world implies the immortality of human personalities a morally significant world the persistence of moral values ; an aesthetically significant world the realization of our unfulfilled ideals of beauty; and a religiously significant world presents itself as the endless pursuit of an ever advancing goal, that is what God s purpose for us means. That purpose never is fulfilled, the process of self-realization is never complete, when death comes, but God s purpose carries over the physical experience and man keeps on forever. Thus it is that a religiously significant world means immortality. - The Homiletic Review, Volumes 83.
