

ECOOP 2004 - Object-Oriented Programming

By Martin Odersky

Springer Jun 2004, 2004. Taschenbuch. Book Condition: Neu. 23.3x15.5x c
Neuware - ECOOP is the premier forum in Europe for bringing together practitioners, researchers, and students to share their ideas and experience in a broad range of disciplines woven with the common thread of object technology. It is a collage of events, including outstanding invited speakers, carefully refereed technical papers, practitioner reports reflecting real-world experience, panels, topic-focused workshops, demonstrations, and an interactive posters session. The 18th ECOOP 2004 conference held during June 14-18, 2004 in Oslo, Norway represented another year of continued success in object-oriented programming, both as a topic of academic study and as a vehicle for industrial software development. Object-oriented technology has come of age; it is now the commonly established method for most software projects. However, an expanding field of applications and new technological challenges provide a strong demand for research in foundations, design and programming methods, as well as implementation techniques. There is also an increasing interest in the integration of object orientation with other software development techniques. We anticipate therefore that object-oriented programming will be a fruitful subject of research for many years to come.

This year, the program committee received 132 submissions, of which 25 were accepted for publication after a thorough reviewing process. Every paper received at least 4 reviews. Papers were reevaluated based on relevance, significance, clarity, originality,...
