

Elementary Principles of Electricity and Magnetism; For Students in Engineering (Paperback)

Filesize: 5.66 MB

Reviews

Complete information for book fanatics. It normally does not cost excessive. I am very easily can get a satisfaction of reading a created publication.

(Mrs. Winifred Fritsch)

ELEMENTARY PRINCIPLES OF ELECTRICITY AND MAGNETISM; FOR STUDENTS IN ENGINEERING (PAPERBACK)

DOWNLOAD

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1913 Excerpt: .to r and dl . ddf = element of field at P due to current in dl . px = angle between $d3C$ and the X axis. be the X component of $/$. $d3fx = a i cc dl la oc \sin 6$ (225) By definition. By experiment. By experiment. By experiment. (228) $9fx = k f 1 Smg CS---$ /o The unit of current is called the electro-magnetic unit of current if the unit of length is the centimeter, the unit of intensity is the electro-magnetic unit of intensity, and the constant, k , is equal to one. . In electromagnetic units: (229) $dfx = f \sin \cos Vx.dl$ An illustration of unit current, in the electro-magnetic system, is such a current that, in unit arc of unit circle it produces unit field at the center. The practical unit of current is called the ampere and is defined as one tenth of the electro-magnetic unit of current. One ampere = (10) 1 e.m.u. of current. or (Number of amperes) (10) 1 = (Number of e.m.u. of the same current). Equations similar to (229) can be written for components along the other axes. See appendix on International Units. Thus the resultant field at any point for any conductor may be completely determined in magnitude and direction. Usually the X axis may be taken in the direction of the resultant field so that equation (229) is sufficient. Field at the Center of a Circular Conductor.--Let ABC , Fig. 42, be a, circular conductor of radius...
